Bird nest Wikipedia

February 16th, 2019 - A bird nest is the spot in which a bird lays and incubates its eggs and raises its young Although the term popularly refers to a specific structure made by the bird itself“such as the grassy cup nest of the American robin or Eurasian blackbird or the elaborately woven hanging nest of the Montezuma oropendola or the village weaver“that is too restrictive a definition

Ploceidae Wikipedia

February 15th, 2019 - Ploceidae is a family of small passerine birds many of which are called weavers weaverbirds or weaver finches These names come from the nests of intricately woven vegetation that many birds of the family make In most recent classifications Ploceidae is a clade which excludes some birds that have historically been placed in the family such as some of the sparrows but which includes the
