How do I create user accounts from the Terminal in Mac OS

March 14th, 2019 - I've leveraged the different answers here to come up with what I think is a nice script to create user accounts. Admittedly this isn't designed for running a command at a time from ssh; it is more so designed to be a script run when compiling a package-based image of OS X as created by Casper Imaging or InstaDMG. bin bash This script creates a user account under Mac OS X tested with
